### 📄 Summary

Highly motivated AI undergraduate with hands-on experience in web development, machine learning, and startup environments. Passionate about solving real-world problems using technologies like NLP and computer vision. Strong collaborator with a drive to innovate.

### 📄 Education

**B.Tech in Artificial Intelligence**

Noida Institute of Engineering and Technology (NIET), Greater Noida

**2024 – 2028** | CGPA: 8.5 (current)

### 📄 Skills

**Languages & Tools:** Python, JavaScript, HTML, CSS, Git

**Technologies & Concepts:** NLP, OpenCV, Web Development, AI Concepts, Smart Contract Integration

**Soft Skills:** Team Collaboration, Problem Solving, Communication

### 📄 Experience

**Frontend Developer – Bitwin (Crypto Gaming Startup)**

**Jan 2025 – Present**

- Built and optimized a crypto-based gaming platform using Python, HTML, CSS, and JavaScript.

### 📄 Projects

**VIDMIND – Smart Video-Learning Platform** (Hackathon Finalist – GITM, Gurgaon)

**2025**

- Created an AI-driven platform that generates quizzes and certificates from video links.
- Led a team of 5 developers using Python, JavaScript, HTML, and CSS.

- Implemented real-time video parsing, question generation using NLP, and PDF automation.

- Recognized among top teams for innovation and practical impact in edtech.

#### **Leadership & Extracurricular**

- Finalist at **GITM Hackathon** for VIDMIND project (2025)

- Team lead for project development and collaboration on AI-based learning solutions

#### **Achievements & Certifications**

- Successfully completed a workshop on **Python Programming** at **NIET, Greater Noida**

- Successfully completed a workshop on **C Programming** at **NIET, Greater Noida**
